Professional Summary

Recent graduate in Python, Data Science, and AI from Greenbridge Institute, Kampala, Uganda. Passionate about building machine learning models, deep learning projects, and data-driven solutions. Looking to contribute technical skills and creativity in a professional environment.

Technical Skills

- Programming Languages: Python, JavaScript, HTML, CSS
- Data Science & ML: Pandas, NumPy, Matplotlib, Scikit-learn, TensorFlow, Keras
- AI & Deep Learning: Face Recognition, Neural Networks, CNNs
- Tools & Platforms: Git & GitHub, Jupyter Notebook, Google Colab

Projects

House Price Prediction
- Built a ML model predicting house prices using features like area, location, and quality.
- Used Python, Pandas, Scikit-learn, and data visualization for EDA.

Face Recognition
- Developed a deep learning model for facial recognition using CNNs.
- Implemented using TensorFlow/Keras with image preprocessing and augmentation.

Quiz Project (Python Bootcamp)
- Developed a quiz game in Python as part of Angela Yu's Python Bootcamp.

Education

Greenbridge Institute, Kampala, Uganda
- Certificate in Python, Data Science, and AI

Languages

- English – Fluent
